

**TTRS - “Touch, Type, Read and Spell”  
Computer-based Programme For  
The Improvement Of  
Spelling, Reading & Writing Skills**

TTRS succeeds in developing literacy, memory, co-ordination, confidence, concentration and self esteem. It has proven an especially effective learning support for Dyslexia

Using a multi-sensory approach, TTRS is designed to teach familiarity and confidence with the vocabulary and applications, resulting in the ability to accurately read, spell and write over 4,000 words.

*Parent Comment:* “I would say to any parent who has a child with difficulty in literacy, this is an excellent scheme, mainly because it starts at the foundation level and progresses at the pace of the child. My son was diagnosed with dyslexia exactly 12 months ago. Enrolling him with TTRS was one of the best decisions I have ever made. Since then the child has excelled. His literacy skills have surpassed his actual age by 6 months and his confidence is at an all time high.”

*Teacher Comment:* “Her reading has improved significantly and she is now able to tackle a wider range of texts, fiction and non-fiction, more competently. She demonstrates a better understanding of what she reads. She listens more attentively and for longer period; she is more confident and willing to speak out in discussions.”

**One Hour per Week**

**Location: Ballymena 26 Market Road. Portglenone Main Street**
